

8-ALIVE™

Momar's Pinnacle
Bioenzymatic Digester

DRAIN, GREASE TRAP, AND WASTE WATER MAINTAINER

- 5 Strains of aggressive bacteria produce 7 different types of enzymes
- Builds colonies on drain walls and grease trap surfaces
- Aerobic and facultative anaerobic bacteria work in the presence or absence of oxygen
- Certified pathogen-free
- Resists pH and temperature swings better than indigenous bacteria
- Reduces waste surcharges by reducing or eliminating contaminants such as FOGs, BODs, CODs, and TSSs
- Pleasant fragrance eliminates odors

For Use in Drains

Grease Traps

Lift Stations

8-Alive is designed for use with the Momar Maintain-It-All Pump

MOMAR®
