Parts Cleaner and Degreaser

Description:

Cleaner and degreaser for parts cleaning and degreasing. Ammo is specially formulated to be a tough industrial solvent cleaning solution for use in parts washer and dip tank applications. Ammo is also formulated with lanolin so that it is mild on the skin.

Benefits:

- * Completely water rinsable.
- * Dissolves grease and grime on contact. Emulsifies gum and leaves a rust inhibiting film after cleaning.
- * Penetrates and dissolves varnish.
- * Long Life: Can be used over and over again through you part washer.

Application:

Recirculating Part Washer:

Pour Ammo into part washer - follow manufactures directions. Turn pump on and place parts under stream of Ammo until clean. Rinse with water or leave film of Ammo on parts to dry.

Soak Cleaning:

Place parts in Ammo and allow to soak unit clean. Rinse with water or leave film of Ammo on parts to dry.

Specifications:

pH	5.0 to 5.5
Density	0.828 gm per cc
Chlorinated Solvents	None
Cleaning Efficiency (Gardner Scrub)	
ASTM D-3399	100.00%
Appearance	Clear straw colour liquid
Kauri-butanol value ASTM D-1133	27.20
Rinsing properties ASTM D-1281	Passes
Corrosion properties ASTM D-1567	0.02
