POWERFUL POWDERED CLEANER & DEGREASER

Description:

A unique blend of powdered cleaning agents designed for removing oil, grease, dirt, mold, mildew, and other soils from engines, automobiles, wheels, concrete, vinyl, aluminum, wood, and other surfaces.

Application:

For General Engine Cleaning: Mix Dissolve 500 gm BLITZ with 150 liters water (hot water if available; cold water can be used). Using a pressure sprayer, spray liberally exterior of engine chassis, battery, and all components under the hood. Flush off with water hose.

For Car, Truck, Siding, and Deck Washing: Dissolve 500 gm BLITZ with 200 liters water (hot water if available; cold water can be used). Using a pressure sprayer, "wet down" entire surface and then go over entire surface again holding tip of nozzle 6 inches away from surface. Flush off with water hose.

For Engines with Heavy Encrustations: Dissolve 500 gm BLITZ with 75 liters water (hot water if available; cold water can be used). Using a pressure sprayer, spray liberally exterior of engine chassis, battery, and all components under the hood. Flush off with water hose.

Specifications:

pH	11 - 12
Density	0.80 gm per cc
Color	White
Appearance	Powder
Odor	None
Health / Flammability / Reactivity	1 / 0 / 0
Personal Protection	B - Glasses and Gloves
