Concentrated Industrial Deodorant

Description:

A blend of odor controlling chemicals that are designed to reduce odors from sewage, industrial wastes, septic systems, and drainage ditches. Safe for use around animals.

Benefits:

- * Non-Toxic
- * Environmentally Safe
- * Extremely Concentrated
- * Reduces the formation of odors
- * Effective against a variety of odors
- * Provides long lasting odor control

Application:

General Cleaning

Mist spray over the odor causing area. Repeat as needed. Use 1:50 to 1:100 dilution.

For Drainage Systems

Drip or Feed 250 to 500 ml of product per day depending on volume of water in system. A shock treatment may be required for initial treatment.

For Treatment Ponds

Mist over the entire surface for initial treatment and maintain by adding 1 liter per 1000 sq meters over weekly intervals.

For Dumpsters and Trash cans

Spray the area with a fine mist and repeat when odor returns. Use 1:100 dilution.

Specifications:

pH @ 25°C (ASTM-E-70)	8.5 - 9.5
Density @ 25°C (ASTM-D-287)	1.09 gm per cc
Color (visual)	Dark amber
Appearance @ 25°C (visual)	Clear liquid
Foam Height	High
Odor	Extremely powerful perfume odor
Personal Protection	Safety Glasses
Health / Flammability / Reactivity	0 / 0 / 0
