

TECHNICAL DATA REPORT

FROM THE RESEARCH & DEVELOPMENT LABORATORIES OF MOMAR, INC.

Ensign

Correspondence Address:
P O Box 2257
Clareinch
7740

Description:

A concentrated liquid chemical blend designed for the emulsification of animal fats, grease, oils, and proteins.

Benefits:

- * High foaming
- * Phosphate free
- * U.S.D.A. approved A-1
- * Economical concentrate
- * SABS 1828:2005 Certified food grade 
- * Safe on all vertical and horizontal surfaces.

Application:

For food processing cleaning: Remove bulk waste material with a brush, broom, or hose. Dilute one part Ensign with 30 to 50 parts of water. Apply by foam, hand brush, sponge, low pressure sprayer, high pressure sprayer, steam cleaner, or prepare a soak solution. After cleaning, rinse thoroughly with water.

For routine maintenance: Add 100 ml of Ensign per 5 litres of water. Apply solution with brush, cloth, mop, or sponge. Rinse thoroughly with water.

Specifications:

pH @ 25°C (ASTM-E-70)	13.0 - 13.5
Density @ 25°C (ASTM-D-287)	1.06 gm per cc
Color (visual)	Water white
Appearance @ 25°C (visual)	Clear
Foam Height	High
Odor	None
Health / Flammability / Reactivity	2 / 0 / 0
Personal Protection	C - Safety glasses, gloves, and apron
