PREVENTION, PESTICIDES AND  
TOXIC SUBSTANCES

Julian Mohr, Jr.  
Executive Vice President  
Momar, Inc.  
1830 Ellsworth Industrial Boulevard NW  
Atlanta, GA 30318-3746

Dear Mr. Mohr:

The U.S. Environmental Protection Agency applauds Momar, Inc. ("Momar") for your leadership in developing an environmentally oriented set of degreasers, carpet cleaners, and general purpose cleaners. EPA's Design for the Environment ("DfE") program seeks to promote the use of products with improved environmental and human health characteristics. The line of GreenAction products in our partnership—Green Heat Industrial Degreaser, Neutrox Neutral Cleaner Concentrate with Peroxide, Oomph Carpet Spotter with Peroxide, Vigor Deck and Siding Wash, Lucent Glass Cleaner, Respond Tub and Tile Cleaner, Brute Truck and Trailer Wash, Envision Neutral Cleaner Concentrate, and Dash Kitchen Degreaser—fully achieve that objective in the institutional cleaning sector.

The key purpose of the DfE-Momar partnership is to recognize and encourage the environmentally preferable chemistry of the partnership products. DfE is very enthusiastic about your successful formulation of these products and about our partnership. By eliminating hazardous solvents, environmentally persistent surfactants, and other harmful ingredients, you have demonstrated active environmental stewardship and dedication to continuous improvement.

Institutional service, janitorial, and maintenance companies that use your recognized products will be participants in this important national effort to protect the environment and safeguard human health. I commend Momar for your commitment to improving the environmental profile and performance of your products—and for leading change in the cleaning industry. DfE looks forward to building this partnership and wishes you much success with the partnership products.

Sincerely,

A handwritten signature in blue ink that reads "Clive Davies".

Clive Davies, Chief  
Design for the Environment
