Miracle Tool Aerosol

Description:

Moisture displacement and corrosion prevention compound

Benefits:

- * Protects and preserves valuable equipment and prolongs life.
- * Saves production, maintenance, and repair time and eases mechanic's job.
- * Seals against moisture and prevents corrosion from rust, salt, water, and wear.
- * Prevents mechanical and electrical failures due to moisture and salt atmosphere.
- * Use for air planes, automobiles, Laundromats, starting wet engines, vending machines, farm equipment, electrical panel boards, parking meters, home workshops, outboard motors, locks and hinges, snow removal equipment, refrigerator equipment, stops battery corrosion, and removes moisture from ignition wires.

Application

Remove the protective cap. Point directly toward the area to be treated and press the valve. Spray liberally.

Specifications:

pH @ 25°C (ASTM-E-70)	N / A
Density @ 25°C (ASTM-D-287)	0.98 gm per cc
Color (visual)	Light Amber
Appearance @ 25°C (visual)	Clear
Spray Type	Stream
Odor	Solvent
Health / Flammability / Reactivity	2 / 2 / 0
Personal Protection	B - Safety glasses and gloves

MOMAR MIRACLE TOOL AEROSOL

Master penetrant and corrosion retardant.

An all-purpose answer to many lubrication and corrosion prevention problems. Designed originally for the automotive trade, industrial engineers, master mechanics, and heavy equipment shops.

Demoisturizes and lubricates. Ready to use.

Penetrates and loosens nuts, bolts, pins, mufflers, manifolds, engine heads, brake adjusters, u-bolts, tie rod connections, locks, latches, control cables, electric motors, retaining rings, threaded and sliding members.

Acts as an anti-seize to prevent rust, corrosion, and binding.

Great on heaters, door mechanisms, brakes, and similar equipment that usually requires dismantling to stop squeaks.

Stops and removes corrosion on battery terminals and hold down brackets, chrome plates, parts, and tools.

Removes moisture from distributor, ignition wires, spark plugs, generators, and starter motors.

Eliminates squeaking on door and panel hinges, brake pedal pivots, rubber bushings, throttle controls, carburettor linkage, brake assembly, hand brake cables, and movable seat channels.

U.S.D.A. C1. Dielectric strength of 45,500 volts.

MOMAR MIRACLE TOOL, conforms to the US Military Specification MIL-C-81309E. *This specification covers the requirements of an ultra-thin film, water displacing, corrosion preventive compound which may be applied by dipping, spray gun, brushing or from pressurised containers.*
