

TECHNICAL DATA REPORT

FROM THE RESEARCH &
DEVELOPMENT LABORATORIES OF
MOMAR, INC.

On Board ***Contact & Circuit Board Cleaner***

Correspondence Address:
P O Box 2257
Clareinch
7740

Description:

On board is a quick drying, high purity formula that evaporates rapidly and leaves no residue. On Board is safe on most plastics and paints.

Benefits:

For Use By	For Use On					
Computer Service	Circuit Boards	Control Panels	Audio / Video			
Automotive	Terminals	Motors	Equipment			
Industrial Plants	Relays	Magnetic Tape	Office Equipment			
Audio / Visual	Switches	Potentiometers	Tuners			
Military	Contacts	Rheostats	Other electrical			
Avionics	Circuit Breakers	Security Systems	Equipment			
Gaming Industry	Features					
Robotics				Fast Drying	Powerful Cleaning	Residue Free
Offices						

Application:

Read entire label before using this product.

- 1 Turn off power supply. Allow hot surfaces to cool.
- 2 For optimum results, prepare heavily soiled or corroded surfaces by buffing with a mild abrasive or spray with an air duster.
- 3 Tilt surface and spray until clean.
- 4 Use an intermittent spray pattern to dislodge trapped particles and allow excess cleaner to run off.
- 5 Use extension tube for pinpoint delivery of hard-to-reach areas.
- 6 Allow product to dry completely and thoroughly vent system before restoring power.
- 7 For personal safety, do not apply while equipment is energized.

Specifications:

Density	5.5 - 5.6
Evaporation	Fast
Color	Clear
Appearance	Mild Alcohol
Dielectric Strength	22,600 volts
Health / Fire / Reactivity	2 / 3 / 0
Personal Protection	B
