Thermo-Alkaline Sewer Line Opener

Description:

Sewer-Cide is a fast-acting sewerline opener that will attack and dissolve the toughest blockages caused by roots, grease, tar, paper, trash, mud, bags, debris, hair, and other organic matter.

Benefits:

- * All surfactants are completely biodegradable.
- * Fortified with exclusive heat producing additives to clear sewer lines quickly and economically.
- * Double the strength of other sewer powders.
- * USDA L-1 for use in federally inspected meat and poultry plants.

Application:

Add one part Sewer-Cide for every 10 parts of water in the sewer line. Pour the powder directly into the manhole. After a minute or two, watch the water flow below the blockage

Specifications:

pH @ 25°C (ASTM-E-70)	12.9 - 13.9
10% Solution of Sewer-Cide	120 °C - 150 °C
Color (visual)	Off white
Appearance @ 25°C (visual)	Free Flowing Powder
Foam Height	None
Odor	None
Health / Flammability / Reactivity	3 / 0 / 2
Personal Protection	K - Mask, Gloves, Suit, Boots
